

FOR IMMEDIATE RELEASE

Chesapeake Financial Settlements, LLC is New Corporate Partner of Financial Planning Association of the National Capital Area (FPA NCA)

Rockville, MD, June 12, 2006 – Chesapeake Financial Settlements, LLC (Chesapeake), a life settlement brokerage firm based in Rockville, MD has recently agreed to a Corporate Partnership with the Financial Planning Association of the National Capital Area (FPA NCA).

The FPA NCA consists of more than 900 financial professionals who represent a broad spectrum of the financial services industry. Its members include Certified Financial Planners™, practitioners, broker dealers, insurance professionals, attorneys, CPAs, and specialists in the areas of investments, banking, and trusts.

“FPA members are viewed as the leaders in providing sound and trusted financial planning advice,” offered Joe Young, Principal of Chesapeake. “Our new relationship provides us an excellent platform to educate these professionals on the new planning opportunities that the emerging life settlement marketplace provides their senior clients,” Young added.

A life settlement is the sale of a life insurance policy by a senior over the age of 65 to an institutional investor for an amount greater than the cash surrender value the insurance company would pay. Recent surveys show that there is general lack of awareness and understanding of the life settlement marketplace. “Chesapeake’s relationship with the FPA enhances our ability to provide members with information and education on niche services, such as life settlements, that can enhance their practices and benefit their clients,” said Peggy Nelson, Executive Director of the FPA NCA.

Chesapeake launched their relationship with the FPA NCA at the organization’s Summer Symposium, Monday, June 5. Chesapeake participated in the “Ask the Experts” roundtable session, hosting a discussion titled, “*The Untapped Asset – How to Unlock the True Value of Your Senior Clients’ Insurance Policies.*” “As expected, there was significant lack of awareness and understanding of the life settlement marketplace, and more importantly, the planning situations that provide opportunities to utilize this new tool. We saw the light bulb go on with many of the attendees as they recalled client scenarios that could have benefited from exploring a life settlement,” Young concluded.
